

PINCODE BASED SHIPPING & COD

Advance checking of pin codes is a great feature. Online shoppers usually like knowing the timeline of their orders before they place an order. With this extension you can tell them about the delivery dates of your products before they move towards the buying stage. This will reduce your cart abandonment rates and increase your customer satisfaction rates.

With this extension you can tell them about the delivery dates of your products before they move towards the buying stage.

Features

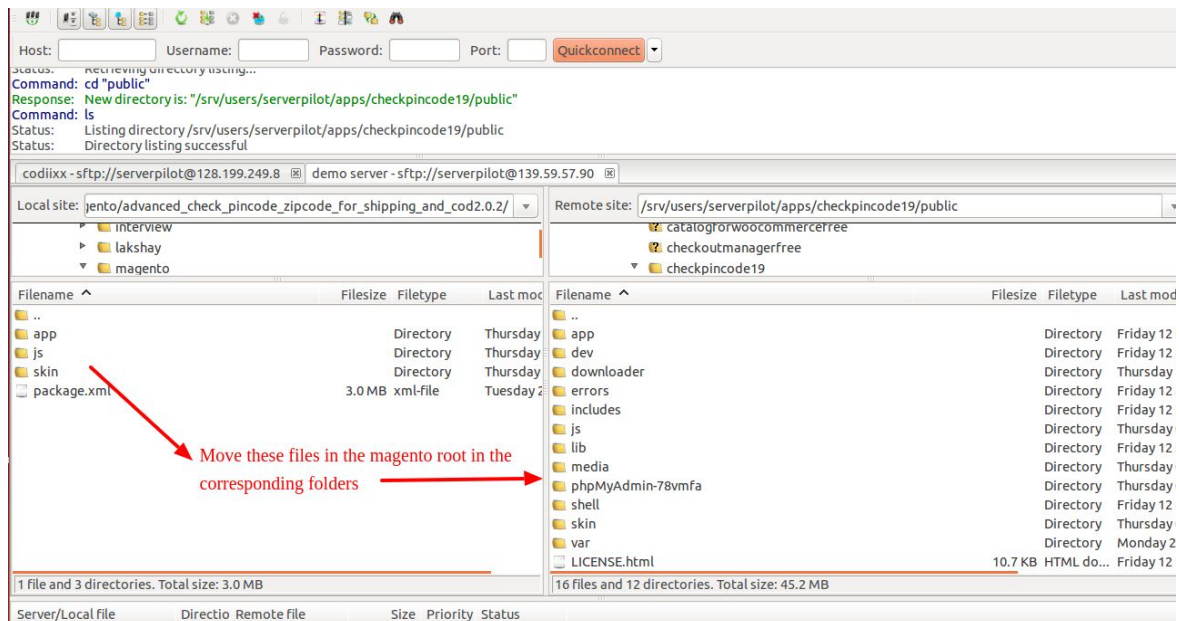

1. NEW! Option to enable or disable Pincode Popup.
2. NEW! Option to upload Popup-icon image of your choice.
3. NEW! Various Styling Options (background overlay color or opacity, button text or color etc.) available, to set the popup style as per your choice.
4. NEW! Option to set time-span (in seconds), after which the popup appears on the loaded page.
5. Can upload the pin codes sheet from the backend (only in CSV format)
6. CSV sheet format is – Pincode: City: State: Delivery within days: Cash on delivery : Saturday: Sunday
7. Can have COD verification based on pin codes
8. Can display the delivery dates on product page and Checkout page
9. Can keep the delivery service off for Saturdays and Sundays
10. Customers can check pin codes for shipping on product and checkout page
11. Delivery dates are shown based on the pin codes
12. Add to cart will only be enabled when pincode is verified.

Installation

You just need to move folder content (i.e. app, js, skin) and package.xml into corresponding folder in magento root.

NOTE

If you are using Custom theme then you have to copy the frontend files into that theme folder instead of “default” folder

The screenshot shows a file manager interface with two panels: Local site and Remote site. The Local site panel shows a directory structure with 'magento' as a subdirectory. The Remote site panel shows a directory structure with 'checkpincode19' as a subdirectory. A red arrow points from the local 'app', 'js', 'skin', and 'package.xml' files to the 'magento' directory in the remote site listing. A text box says 'Move these files in the magento root in the corresponding folders'.

Filename	Filesize	Filetype	Last modified
..		Directory	Thursday
app		Directory	Thursday
js		Directory	Thursday
skin		Directory	Thursday
package.xml	3.0 MB	xml-file	Tuesday

1 file and 3 directories. Total size: 3.0 MB

Filename	Filesize	Filetype	Last modified
..		Directory	Friday 12
app		Directory	Friday 12
dev		Directory	Friday 12
downloader		Directory	Thursday
errors		Directory	Friday 12
includes		Directory	Friday 12
js		Directory	Thursday
lib		Directory	Friday 12
media		Directory	Thursday
phpMyAdmin-78vmfa		Directory	Thursday
shell		Directory	Friday 12
skin		Directory	Thursday
var		Directory	Monday 2
LICENSE.html	10.7 KB	HTML do...	Friday 12

16 files and 12 directories. Total size: 45.2 MB

After moving both the folder, flush the cache from magento admin module. Under System > Cache Management.

Cache Storage Management

Global Record Search | Logged in as phoenixx | Tuesday, December 8, 2015 | Log Out

Latest Message: Reminder: Change Magento's default phone numbers and callouts before site launch | You have 10 critical, 6 major, 19 minor and 136 notice unread message(s). [Go to notifications](#)

Flush Magento Cache | Flush Cache Storage

Click on Select All

Then click on Flush Cache Storage

Cache Type	Description	Associated Tags	Status
<input checked="" type="checkbox"/> Configuration	System(config.xml, local.xml) and modules configuration files(config.xml).	CONFIG	<input type="button" value="DISABLED"/>
<input checked="" type="checkbox"/> Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	<input type="button" value="DISABLED"/>
<input checked="" type="checkbox"/> Blocks HTML output	Page blocks HTML.	BLOCK_HTML	<input type="button" value="DISABLED"/>
<input checked="" type="checkbox"/> Translations	Translation files.	TRANSLATE	<input type="button" value="DISABLED"/>
<input checked="" type="checkbox"/> Collections Data	Collection data files.	COLLECTION_DATA	<input type="button" value="DISABLED"/>
<input checked="" type="checkbox"/> EAV types and attributes	Entity types declaration cache.	EAV	<input type="button" value="DISABLED"/>
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api.xml).	CONFIG_API	<input type="button" value="DISABLED"/>
<input checked="" type="checkbox"/> Web Services Configuration	Web Services definition files (api2.xml).	CONFIG_API2	<input type="button" value="DISABLED"/>

Additional Cache Management

Flush Catalog Images Cache | Pregenerated product images files.

Flush Swatch Images Cache | Pregenerated configurable swatches image files.

Flush JavaScript/CSS Cache | Themes JavaScript and CSS files combined to one file.

After Flushing the cache you need to reindex the data from magento admin module. Under System > Index Management.

Index Management

Click on Select All

Choose the reindex data option and then click on Submit

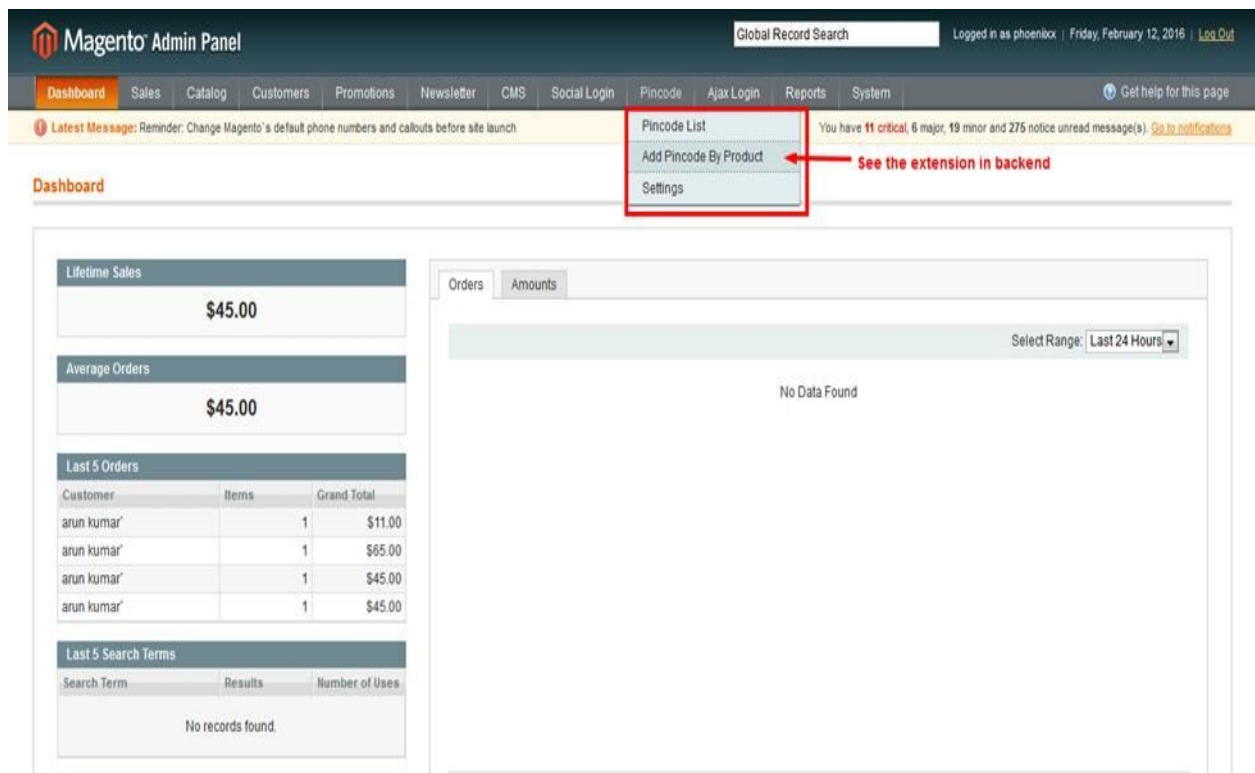

Index	Description	Mode	Status	Update Required	Updated At	Action
<input type="checkbox"/> Product Attributes	Index product attributes for layered navigation building	Update on Save	READY	NO	Dec 4, 2015 7:31:16 AM	Reindex Data
<input type="checkbox"/> Product Prices	Index product prices	Update on Save	READY	NO	Dec 4, 2015 7:31:16 AM	Reindex Data

Configuration

After the module installation , go to the Pincode tab and configure the Check Pincode/Zipcode for Shipping & COD extension.

We have two mode to add pincode:

- 1) Pincode list
- 2) Add pincode to product

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes the Magento logo, a search bar, and the user's login information. The main navigation menu is visible, with the 'Pincode' tab selected. A red box highlights the 'Pincode List', 'Add Pincode By Product', and 'Settings' options. A red arrow points to the 'Add Pincode By Product' option with the text 'See the extension in backend'. The dashboard content area shows various widgets: 'Lifetime Sales' (\$45.00), 'Average Orders' (\$45.00), 'Last 5 Orders' (a table with 4 rows), and 'Last 5 Search Terms' (No records found). The 'Orders' widget is currently empty, displaying 'No Data Found'.
