

Reward Point Installation

Go to your WordPress admin panel, and then to Plugins. Click on "Add New" and then upload the zip file of the plugin using the "Upload Plugin" button you can find on top of the screen.

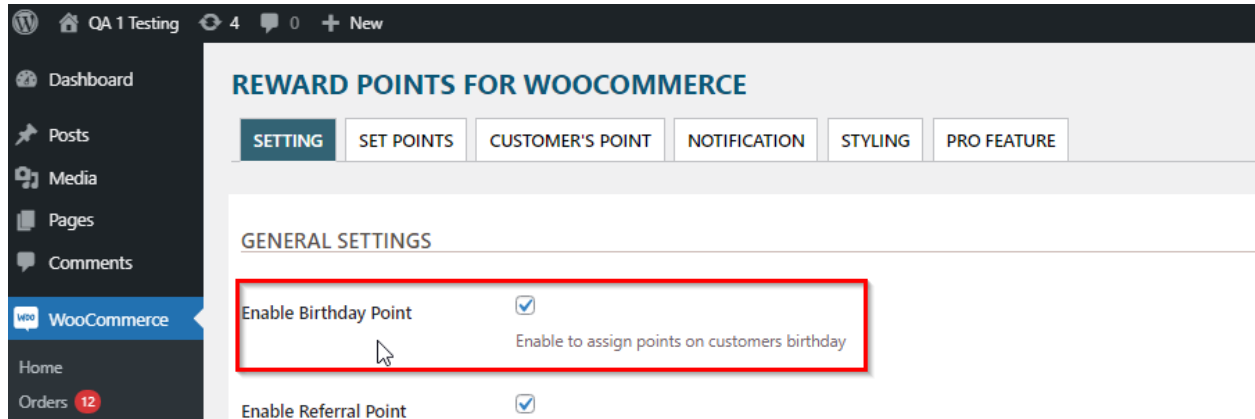

For the plugin to work as it should, WooCommerce plugin has to be installed and enabled.

Activation

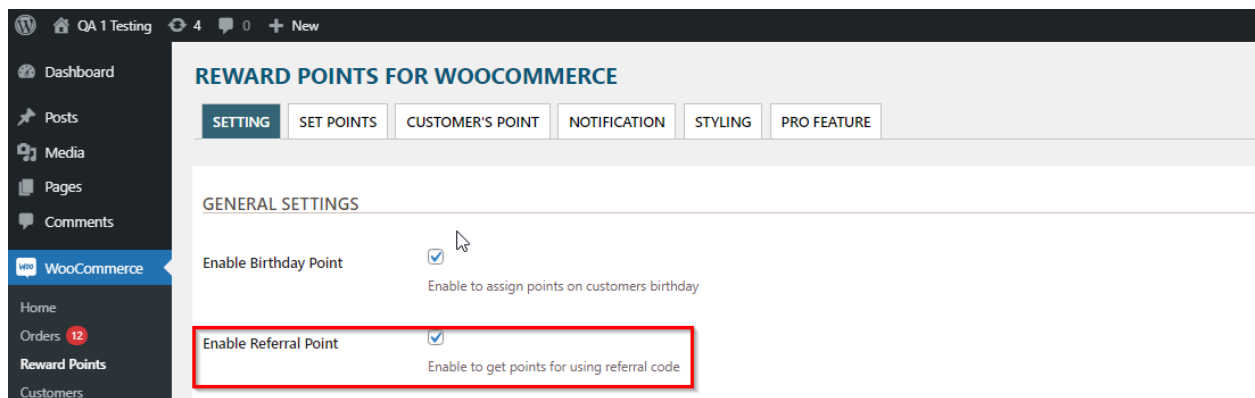

Once you have uploaded the plugin, activate your plugin in Plugins → Installed plugins. If it has been activated correctly, plugin control panel is available in the **“WooCommerce”**

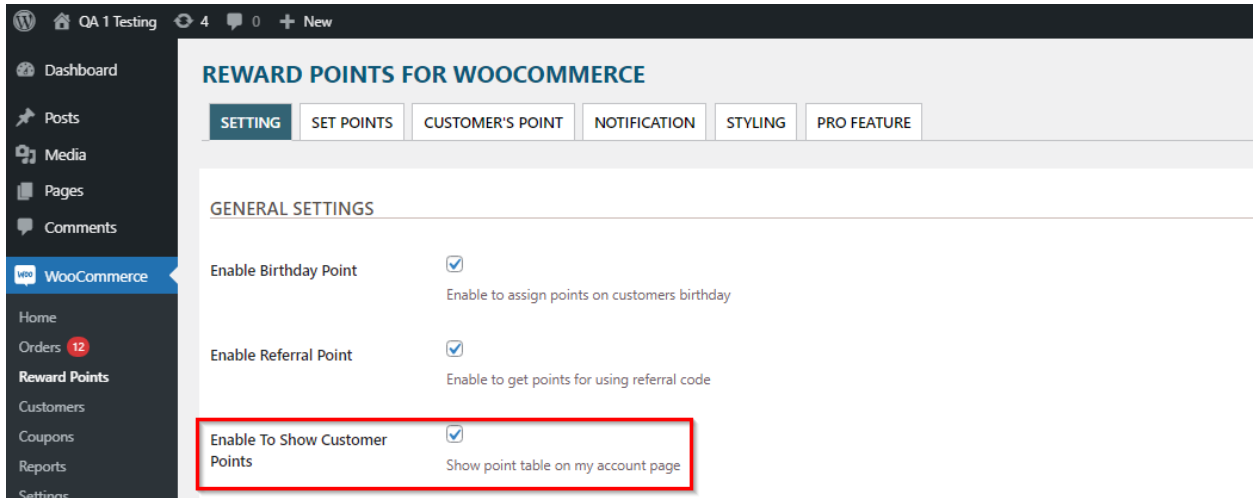

Option to Enable/disable the Birthday Points

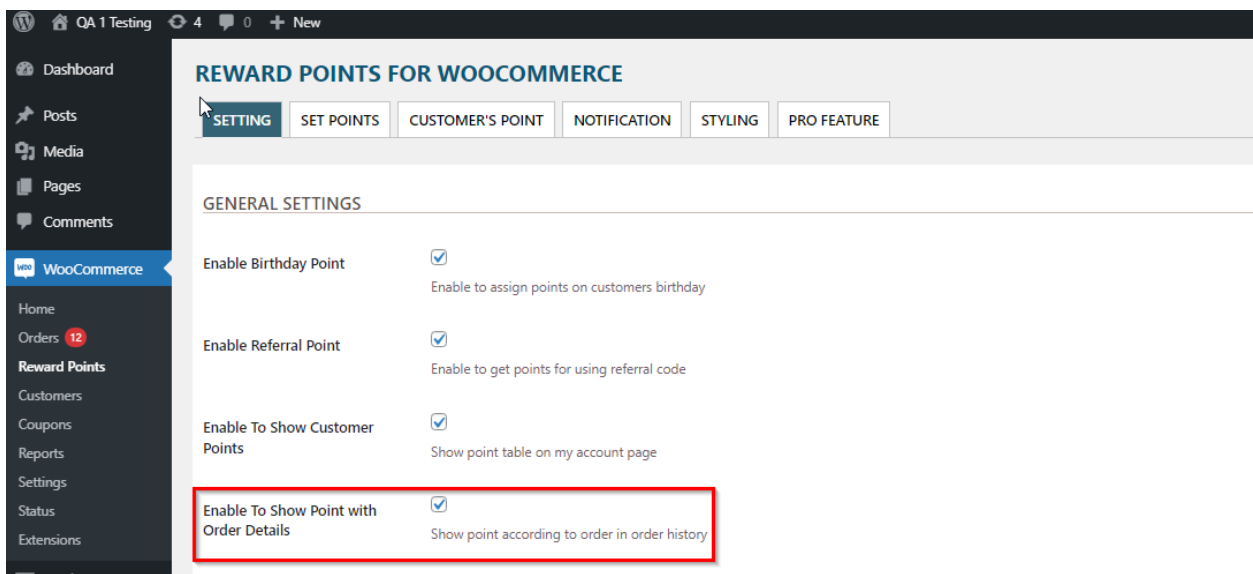

Option to Enable/disable the Referral Points

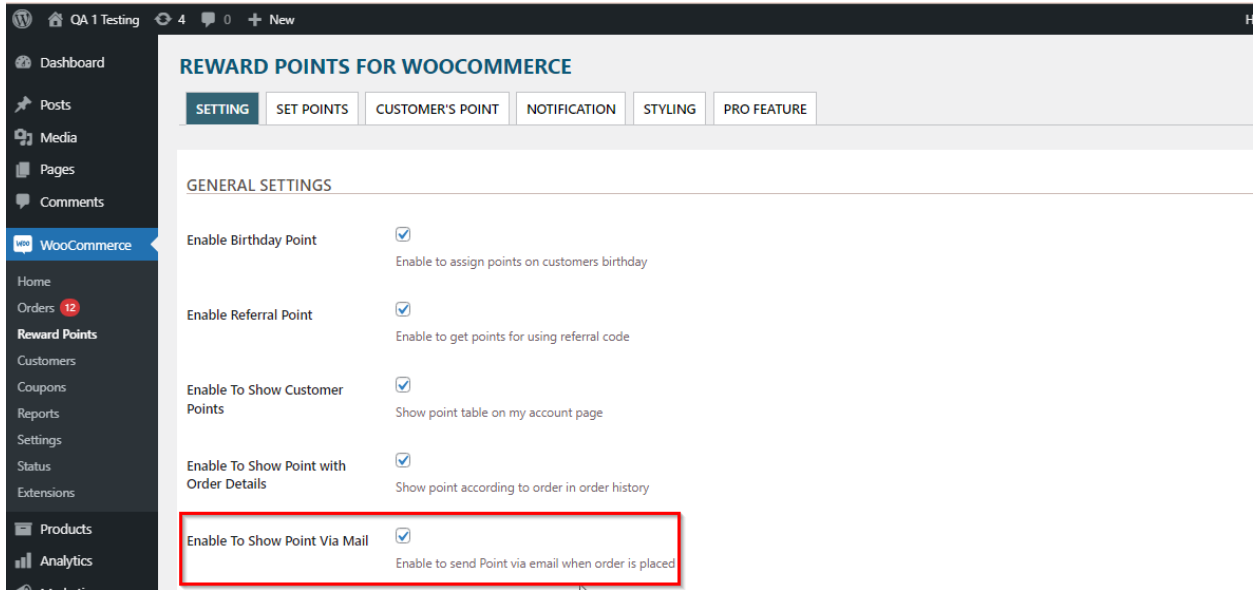

Option to Enable/disable the Show Customer Points

Option to Enable/disable the Show Point with order details

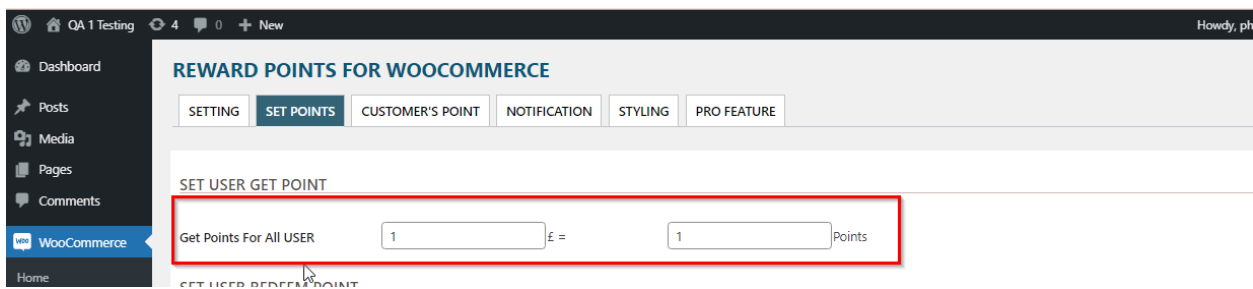

Option to Enable/disable the Show Point Via Email

Set Purchasing Point

Option to set the purchasing points like 1\$ = 1Points. So if the product price is \$18 then according to the rule the user will earn 18 points.

Redemption Value

Option to set the redemption value like 100Points = 1\$. So if the user has earned the 100 points and when they applied they will get a \$1 discount according to the rule you set.

The screenshot shows the 'REWARD POINTS FOR WOOCOMMERCE' settings page. The 'SET USER REDEEM POINT' section is highlighted with a red box. It contains the following fields:

- Redemption Value: 1 Points = 1 £
