

Documentation of Check Pincode / Zipcode [Premium]

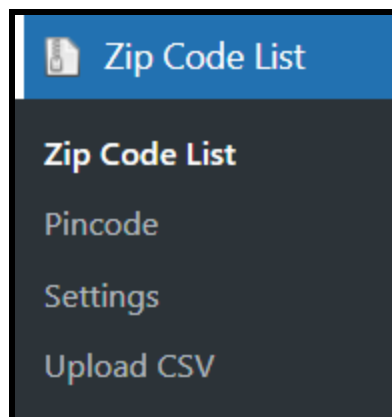

Installation of Check Pincode / Zipcode [Premium]

Installation

- 1) **Install WordPress** from http://codex.wordpress.org/Installing_WordPress.
- 2) **Upload via FTP:** - Unzip the zip archive you have downloaded on your computer. Upload the folder to your server via FTP into the directory plugins on your Word press installation (**wp-content→plugins**).
- 3) **Upload via Wordpress Admin:** - Go to your WordPress admin panel, and then to **Plugins**. Click on "Add New" and then upload the zip file of the plugin using the "Upload Plugin" button you can find on top of the screen.
- 4) For the plugin to work as it should, the [WooCommerce plugin](#) has to be installed and enabled.

Activation

Once you have uploaded the plugin, activate your plugin in Plugins > Installed plugins. If it has been activated correctly, the plugin control panel is available in the tab **Zip Codes List** in WordPress dashboard.

Description

Advance checking of pin codes is a great feature. Online shoppers usually like knowing the timeline of their orders before they place an order. With this plugin you can tell them about the delivery dates of your products before they move towards the buying stage. This will reduce your cart abandonment rates and increase your customer satisfaction rates.

Manual Settings

General Setting:-

- **Background Color** : You can Change the color of your Pincode surrounding area on the Product page by choosing color in this option.

Background color

- **Pincode Length** : Pincode length can be fixed according to choice.
For example:- You'll choose Pin code length 6 , then customers are only able to enter 6 letters in the Pin code bar , Not more than 6 or Exceed the number as you choose.

Pincode Length

- **Error Message** : Here you can leave the message for users who left the Pincode field blank or Entered less than minimum Pincode numbers required, then this message will be shown to them.

Error Message

Field is required field

Error Message for when user leave blank pincode or less than maximum length of pincode.

- **Invalid Pincode Message** : This message will be shown to users when they enter a wrong or Invalid Pin code.

Invalid Pincode Message

Oops! we are not serving at your Pin code.

Error Message for when user enter wrong pincode.

- **Valid Pincode Message** : This message will be displayed when users enter a Valid Pin code.

Valid Pincode Message

We are available and serving at your Pin code.

Success Message for when user enter right pincode.

- **Product Page** : In this you'll get Two options:-

1. **Show Pin Code on Product Page**- When this option "Enable" then users can check pin code on "Product page" .
(But, If this option is disabled then the Pin code option will be visible on cart or checkout page).

Product Page

Enable To Show Pincode On Product Page

2. **Validation on Product Page**- If this "Enable" then people "wouldn't be able" to add the product in cart "on Product page" without valid pin code.

Just as Disable validation on product page then they can add items to cart with invalid or blank pin code field.

<input checked="" type="checkbox"/> <i>Enable Validation On Product Page</i>
--

- **Search Pincode** : Here we get Two types to Enable/Disable how the user will search pin code either by entering a **State** or **City** name.
For example:- People can choose their State or City Name in Drop down button (as done in manual setting) and they'll find the available state and city based Pincode more easily.

Search Pincode	<input checked="" type="checkbox"/> <i>Enable For Search Pincode Based On State</i>
	<input checked="" type="checkbox"/> <i>Enable For Search Pincode Based On City</i>

Enter Pincode Setting :-

- **Enter Pincode Heading** : This text will appear above the Pin code enter field which lets the user know for what this field is given and insure them to enter pin code. You can change the text as you need.

Enter Pincode Heading	<input type="text" value="Check Availability"/>
-----------------------	---

- **Pincode Submit Button Text** : When user Enters a Pin code , Right Side button there is for submitting the Pin code. We can Change the Text of Button.
For instance:- Submit, Check, Enter etc.

Pincode Submit Button Text	<input type="text" value="Check"/>
----------------------------	------------------------------------

- **Pincode "Submit" Button Text Color** : We can change the color of The **"Submit"** Text of the **Button** from color pallet.

Pincode Submit Button Text Color	<input type="text" value="Select Color"/>
----------------------------------	---

- **Pincode “Submit” Button Background Color** : We can change the color of Button - “Submit”.

Available Pincode Setting :-

- **Available Pincode Heading** : This text will appear at the left side of the Pin code field & can be changed.

- **Serving Message For Available Pincode** : This message will appear if the user input a Valid Pin code and Service is available in that Pincode.

- **Not Serving Message For Available Pincode** : This message will be displayed if the user Inputs a Valid Pincode but Service is Not Available for that Pincode.

- **Pincode “Change” Button Text** : We can change the **text of the Button** = “Change” .

(Which is used to Change the entered pin code) & can Re-text as Re-Enter etc/Change etc.

Pincode Change Button Text

- **Pincode “Change Button” Text Color :** From here we can change the color of the “Text written on the “Change” Button.

Pincode Change Button Text Color

- **Pincode “Change Button” Background Color :** We can change the background Color of “Change Button”.

Pincode Change Button Background Color

- If Quantity based COD Enable than Multiple of 20 /- , which is for 1 item only 20/- ,for 2 items 40/- will be added to your cart .

- ❖ **Exclude products on shop page** : For that Pincode you have the option to Exclude Items from the Shop page . Than Product will not be Visible for that Pincode. You just Have to select the product from the drop down option.

Zip Code List

From here you can access all the Pin code / Zip code which is added to your site & Can "Edit or Delete" from here.

- **Search Bar** is given for easily find Pin code By entering Pin code/Area/City/State name

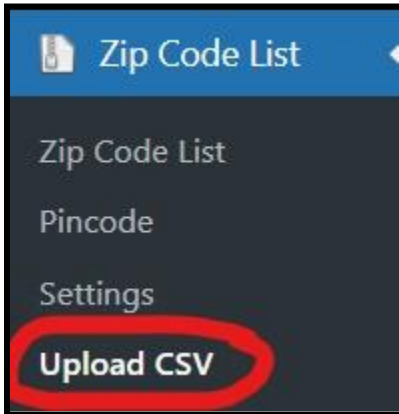

- Bulk action & Multiple Delete option is given

Upload CSV

In Premium Version You can Easily Import Bulk Pin code / Zip code using CSV Format

You just need to choose the File it should be in CSV Format only and then upload it. It'll automatically add to your Zip code / Pin code List.

* Maximum Upload File Size Limit is :- 256 MB *

* Sample CSV Format is given *

Import Zip Codes in CSV Format

Upload File No file chosen

Maximum upload file size 256MB

Sample CSV shown below :-

	A	B	C	D	E	F	G	H	I	J	K	L	M	N
1	PINCODE	AREA	CITY	STATE	COUNTRY	ENABLE COD	COD CHARGES	QTY * COD CHARGES	DELIVERY BY	DELIVERY DAY	DELIVERY NAME	DELIVERY BY HOURS	DELIVERY BY MINUTES	EXCLUDE PRODUCT LIST
2	110002	A G C R	Delhi	DL	IN	yes	10	yes	day	1		0	0	0
3	110003	Aligeni	Delhi	DL	IN	yes	10	yes	day	2		0	0	0
4	110005	Ashok Nagar	Delhi	DL	IN	no	1		day-name	3	Wednesday	0	0	0
5	110010	A F PS	Delhi	DL	IN	yes	10	yes	time	4		18	10	0
6	110018	Ashok Nagar	Delhi	DL	IN	no			day	5		0	0	0

- * Pincodes you have entered in the CSV should be unique.
- * You have to Enter **Pincode** in the **First Column**.
- * **Second Column** with **Area Name**.
- * **Third Column** with **City** , **Fourth column** with **State** , **Fifth Column** with **Country** name.
- * In the **Sixth column** you have to choose Enable / Disable COD , Column heading **Enable COD** , type Yes / No accordingly.
- * **Seventh column** heading should be - **COD Charges** (if you type yes! in the Enable COD column then enter Charges which are applied with COD charges , If No! Then leave blank.
- * **Eighth column** heading should be- **QTY * COD CHARGES** , if Quantity based COD Charges apply then type - Yes in the row of the Pin code otherwise leave it blank.
- * **Ninth column** with heading as - **Delivery By** , type either Day / Day name / Time .
- * **Tenth column - Delivery Day** , You have to Enter the Number of days in which the delivery will be done.
- * **Eleventh column - Delivery Name** , if you enter Day name in the previous column then enter the day name here. eg ; Thursday, Monday, Friday etc.
- * **Twelfth column - Delivery by Hours** , if you entered "Time" in the Ninth column then enter Hours only in time viz 1,2,10,24 etc.
- * **Thirteenth column - Delivery by Minutes** , you can enter extra minutes with twelfth column of Hours eg: 10, 20, 30 etc if you fill the ninth column with "Time".
- * **Fourteenth column** - this column is for Exclude Product , so make a column with heading **Exclude Product List** and type the Product IDs there.

- Make sure to Save the File in CSV format , Not in Excel Format. For This create file in Excel and while saving choose to save as **.csv** format. As it saves as CSV format upload on your site in the Upload CSV.

Product Based Pincode

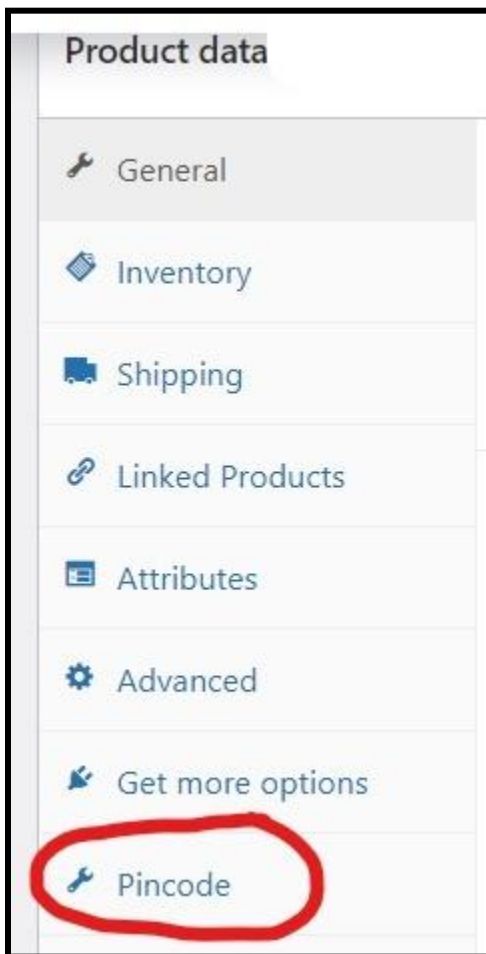

This **New** feature is given to Our Premium Version. By this feature you can choose to restrict some Product to Visible everywhere.

This feature creates a separate list of pin code for Specific Product & work for that Specific product only.

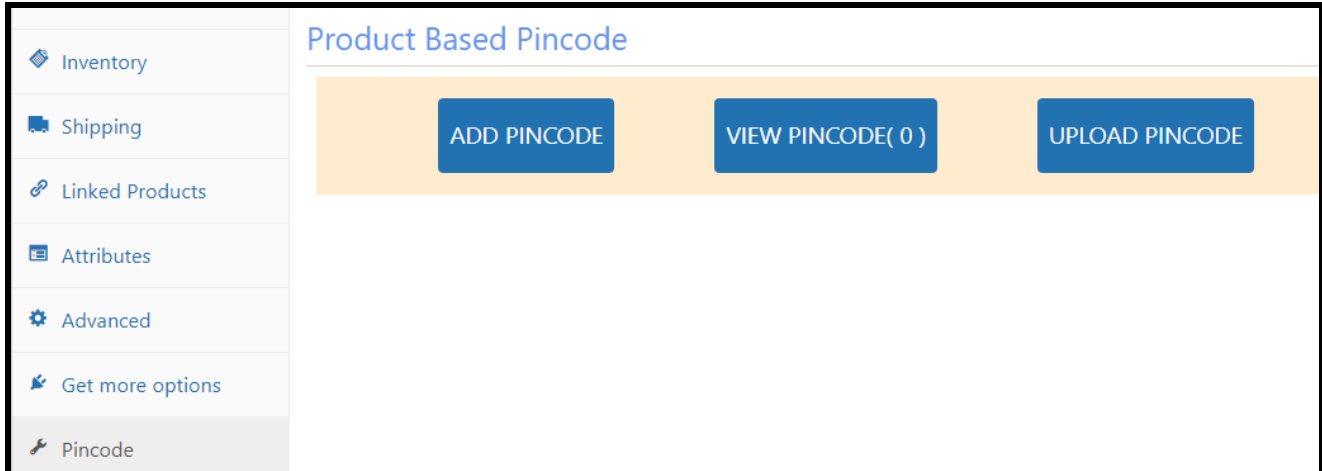

For Example:- You want to Visible Your Selected product in only 4 Pincodes ; 110001, 110028, 110050 and 110029. Then this feature works there.

The Steps Mentioned Below:

1. Visit to your Product Page from where you can Edit Product related details.
2. Scroll Down and Visit to Product Data tab
3. You'll find the **Pincode** Option there.

4. After clicking on the Pincode button You can see this tab in your site.

5. It works as **Add Pincode** - to add the Individual Pin Code here , **View Pin code** - to view the Entered Pincode In the List , **Upload Pin Code** - to Upload Bulk Pin code in CSV Format.
6. **Add Pincode** - after Clicking On this option you can see this page as;-

Add Product Based Pincode (Top)

Product ID

55

Pincode

Area

City

State

Select State

Country

Select Country

Delivery By

Day

Day Name

Hours & Minutes

City

State

Country

Delivery By

Delivery within day(s)

Enable cash on delivery for this pincode

7. **View Pincode** looks as:-

Product [Top](#) Pincode List Table

Bulk actions 1 item

<input type="checkbox"/>	Pincode	Area	City	State	COD	Delivery By
<input type="checkbox"/>	110049	Gautam Nagar	new delhi	DL	no	day
<input type="checkbox"/>	Pincode	Area	City	State	COD	Delivery By

Bulk actions 1 item

8. Upload Pincode looks like this:-

Import Zip Codes For [Top](#) Product in CSV Format

Upload File No file chosen

Maximum upload file size 256MB

Note:- In the Product Based Pin Code while uploading bulk pincode you just have to create CSV file as mentioned previously viz **Pincode Column , Area , City, State, Country, Enable COD, COD charges, Quantity COD Charges, Delivery By, Delivery Day, Delivery Name, Delivery by Hours, Delivery by Minutes Columns.**

But the **Exclude Product List column is not required** here as it'll not work for Product Based Pincode.
